PUBLIC COMMENTS: Per the Berrien County Board of Commissioners’ Bylaws, those speaking during public comments may do so no longer than two minutes and shall identify themselves by name and city, township, or village. (Article III, 3.9B-C):

Mary Brown, Lakeside – Stated that she and her husband strongly oppose the Second Amendment resolution.

SCHEDULED DISCUSSION:
Printing Department – Juli Corcoran, Supervisor
- Several of the current machines are over 20 years old, and have become outdated and unserviceable.
- The cost to maintain the printing press, platemaker, envelope feeder, new rollers and supplies for 2020 will cost $10,000+.
- If the platemaker breaks down, we would need to purchase a new one for $25,000 - $30,000.
- We urgently need to hire a trained and skilled press operator, which is almost impossible to find, and whose salary would not fit in our current budget.
- After doing some research and contacting a few vendors for ideas, services and availability, there are a few comparable digital solutions that will improve speed and quality while decreasing costs.
Based on a general range of variables, the basic, ballpark costs are as follows for two possible options:

- **Lease** - A 60 month lease for $450 - $600 monthly, with a service contract of approximately $2,000 - $2,500 yearly, and consumables of $4,000 - $5,000 yearly.
- **Purchase** – Cost of $20,000 - $30,000, with a service contract of approximately $2,000 - $2,500 yearly and consumables of $4,000 - $5,000 yearly.

All new digital equipment options are more user-friendly and require minimal training. This allows us to hire an employee with less printing experience, and to have a seasoned Imaging Technician train the new employee.

Requesting approval from the Board to move forward with RFP to attain multiple formal, bids, plus multiple options for an envelope printer.
